

Wave Vogue Carbon Monocoque Boom

Equipped with new front and tail end the Vogue boom is designed to match the high level of performance of the Wave Vogue. Lightweight and stiffness without compromise. Full pre-preg carbon reduced diameter monocoque tube covered by super thin EVA creates a perfect comfortable handgrip. A pin extension made by carbon pre-preg fibre that is secure and ensures a quick and easy trim to any extension length desired, without losing boom stiffness.

Available in 2 sizes

Model	Technology	Min. length	Max length
Wave Vogue Carbon Monocoque Boom 140	Carbon Pre-Preg Monocoque	140 cms	198 cms
Wave Vogue Carbon Monocoque Boom 160	Carbon Pre-Preg Monocoque	160 cms	218 cms

Wave Vogue Oval Gold Carbon Monocoque Boom

Equipped with new front and tail end the Vogue boom is designed to match the high level of performance of the Wave Vogue. Lightweight and stiffness without compromise. Full pre-preg carbon reduced diameter monocoque tube covered by super thin EVA creates a perfect comfortable handgrip. A pin extension made by carbon pre-preg fibre that is secure and ensures a quick and easy trim to any extension length desired, without losing boom stiffness.

Available in 3 sizes

Model	Technology	Min. length	Max length
Wave Vogue Oval Gold Carbon Monocoque Boom 135	Carbon Pre-Preg Monocoque	135 cms	190 cms
Wave Vogue Oval Gold Carbon Monocoque Boom 145	Carbon Pre-Preg Monocoque	145 cms	205 cms
Wave Vogue Oval Gold Carbon Monocoque Boom 160	Carbon Pre-Preg Monocoque	160 cms	220 cms

Super Style Alu Monocoque Boom

Equipped with new grip and new front and tail end the Superstyle Alu monocoque boom is designed to cover a great range of use in freestyle and freestyle wave. With its monocoque construction, the superstyle boom allows to have a superior stiffness without the need of using a carbon construction.

Available in 4 sizes

Model	Technology	Min. length	Max length
Super Style Alu Monocoque Boom 145	Alu T8 Monocoque	145 cms	205 cms
Super Style Alu Monocoque Boom 160	Alu T8 Monocoque	160 cms	220 cms
Super Style Alu Monocoque Boom 180	Alu T8 Monocoque	180 cms	240 cms
Super Style Alu Monocoque Boom 200	Alu T8 Monocoque	200 cms	260 cms

Evolution Boom

The T8 aluminum Evolution boom is made with a constant curve that fits perfectly all the Evolution sails, that have a max shaping point at 30% from the luff. Covered with totally new sophisticated graphic on superthin grip on a reduced diameter of 29 mms and equipped with fast and durable front ends. The Evo boom guarantees the right angle for the Evolution sails.

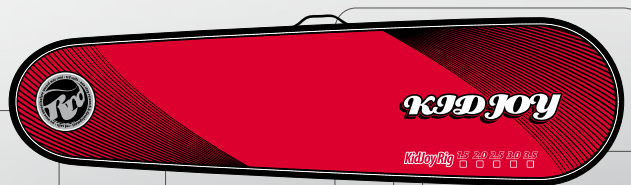

Model	Technology	Min. lenght	Max lenght
Evolution Boom 145	Aluminium T8	145 cms	205 cms
Evolution Boom 175	Aluminium T8	175 cms	235 cms

KidJoy Boom

The T8 aluminium Kidjoy boom is made with a wider front curve to fit the maximum shape forward for the kids' sails. It has a straight curve in the back to maximize easy sheeting in and out and is made with an extra reduced diameter for Kids of 26,5 mms.

Model	Technology	Min. lenght	Max lenght
KidJoy Boom 120-170	Aluminium T8	120 cms	170 cms

RDM Masts

Available in 5 different lengths, the Wave Vogue Mast is a high performance RDM mast designed specifically for the use on wave sails and the superstyle sails. The new Wave Vogue RDM mast is available in 5 different Carbon contents this year : 60%, 75%, 80% and 100%. They all offer an incredible strength together with a fantastic weight and improved rotation of the sail. The 60% and 75% are recommended for smaller size sails and the 100% for bigger sizes or anytime that response and stiffness are a must for performance.

ABSOLUTELY NEW !!! we have developed a radically new technology with Nano Carbon fibers and new tapering called CDM, available only in the 100% carbon version. This is the lightest RDM mast available in the market today!

Vogue Masts C60

Model	Technology	Lenght	IMCS
Wave Vogue Mast C60 310	Carbon/Glass Prepreg	320 cms	16
Wave Vogue Mast C60 370	Carbon/Glass Prepreg	370 cms	17
Wave Vogue Mast C60 400	Carbon/Glass Prepreg	400 cms	19

Evolution Mast C80 520	Carbon/Glass Prepreg	520 cms	32

EPX Mast

Available in 7 different lengths. It is a strong and economical proposal for schools to equip entry level sails. A real improvement for all Easy Ride and KidJoy rigs, a mast line specifically designed and built to last and perform for years!

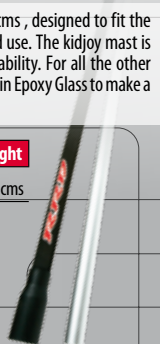

Model	Technology	Lenght
EPX Mast 370	Epoxy/Glass	370 cms
EPX Mast 400	Epoxy/Glass	400 cms
EPX Mast 430	Epoxy/Glass	430 cms
EPX Mast 460	Epoxy/Glass	460 cms
Model	Technology	Lenght
EPX Mast Kid 250	Epoxy/Glass	250 cms
EPX Mast Kid 280	Epoxy/Glass	280 cms
EPX Mast Kid 320	Epoxy/Glass	320 cms

KidJoy ALU Mast

The ALU Kidjoy is available in 1 lenght of 200 cms, designed to fit the kidjoy sail 1,5. It is simple and easy to store and use. The kidjoy mast is made with T8 alu to guarantee maximum durability. For all the other Kidjoy sizes we have the EPX KID rdm mast built in Epoxy Glass to make a durable and lightweight rig.

Model	Technology	Lenght
KidJoy ALU Mast 200	T8 Alu	200 cms

Universal Mastbases Tendon Pro

With hi-density tendon joint, this universal is equipped with a new monocoque stainless steel base that includes the pin system to be locked into the extension.

Universal Mastbases Boge System

With the boge shock absorber joint, this universal is equipped with a pin system to be locked into the extension.

SDM Evolution Alu Extension

The simple and durable 48 mm diameter extension, fits all Evolution and Easyride masts and is equipped with the glass injected mastcup. Available in 30 cms and 45 cms extension with pin system only.

SDM Alu PRO Pin Extension

Available in 30 and 45 cms extension with pin system only. The new PRO version incorporates a heavy duty rope cleat and pulley system.

RDM Alu Extension

The RDM extension designed for the RDM masts. Solid aluminum T8 with thick walling. Available in 30 cms extension and pin system only.

RDM Alu PRO Pin Extension

Available in 30 and 45 cms extension with pin system only. The new PRO version incorporates a heavy duty rope cleat and pulley system .

RDM Carbon Extension

The RDM carbon extension designed for the RDM masts and higher performances . Available in 30 cms and 45 cms extension and pin system only.

RDM Carbon PRO Pin Extension

Available in 30 and 45 cms extension with pin system only. The new PRO version incorporates a heavy duty rope cleat and pulley system .
